Class Prophecy

In the summer of 1970, we took our annual vacation on the Moon. Our point of arrival, as the Earth's turning affected our object of destination, was at THE NEW HOPE MUNICIPALE SPACE STATION.

As we stepped out of the spaceship and shook hands with the crew, we recognized our pilot to be none other than "Birdie" Bill Dudding, and his radio man was Steve Barrett who was now married to Betty Walton, who dabbles in interior decorating and her assistant is Dave Andrews. As we walked on we found that our lovely stewardesses were none other than Peggy Elrod and Bessie Hollman.

We left the space station and went to our hotel. When we arrived there we found to our surprise it was owned by William Johnson and his assistant was Byron Franklin who was married to Karen Heilman and they now had a family of thirteen. As we went to our room we recognized the bellhop to be Bob Dudding who got this job through the influence of his brother.

After we had rested we decided to take a walk and enjoy the scenery. We went across the street to a big park, there we spotted a poor old gray haired lady selling flowers, feeling very sorry for her we decided to buy some. When we approached her we saw it was Nellie McIntyre who looked like she had been having a rough time. While we talked we found out that Tom Kelsy and Arthur Ward own a flower shop and keep her supplied with flowers also that Ray Sweet had become a beatnik and reads poetry to people in the park every day at this time.

So we left Nellie and went to visit Ray. From Ray we found out the shocking news that Iris Beckett and Carolyn Lee are serving time in jail for shoplifting and that Gene Moreland had been killed in a spaceship race with Philip Tindall, who was caught by Sergeant Preston Ray, of the Mounted Moon Militia.

We left Ray, and went on our way to the Monroe Agriculture Museum, which was named in honor of our late classmate, Paul Monroe, who was killed in a freak accident when kicked by a Jersey bull. We saw the caretaker of the museum, Raymond Embry, mixing feed for the animals. As we talked to Raymond, he said that the famous space explorer, Colonel Larry Pogue had just discovered a new planet called Planet Pogue, while singing "Lead Me the Way Home."

This chat, taking too much time, we bid him good-bye and went on our way. As we were passing a super market we saw a familiar face, we looked twice, it was a dummy. We drifted in for a better look. We found that it was really David Hayes pushing his little boy around in a cart. He informed us he was married to Mary Clark, and that the striking young man at the meat counter cutting meat was George Glick the famous meat cutter, who is now married to the author of the best seller of the year, "Tarzan and the Swinging Meteorite" Dora Gommel.

Later that night we dined in the Newton's Ballroom established by John Newton, but due to an unfortunate gambling debt lost it to David Stone who now owns it. While at the Ballroom we saw Joe Robertson and Wanda Richards after their performance, they had been a dance team since they got out of school. From them we learned that Rosemary Herndon had been admitted to a mental institution, she is said to have a chronic case of alcoholism.

The third day of our stay was filled with more adventures. We were on our way to the highest peak of Mt. Siefert, which is the highest mountain on the Moon. It was discovered by Professor Phil Siefert, who is a bachelor, although engaged to Donna Henderson, the protegee to the now famous Leroy Foster, Jr., a magician whose best trick is pulling rats out of cheese boxes. As we approached the peak we heard off in the distance some one calling "Mush!" "Mush!" the poor man must have been starving then we found out that he was yelling at his dog space sled. It was Larry Smith trying desperately to get his dogs to hurry as his wife was about to give space to another one of those "little devils."

When we arrived at the peak we had lunch with Fred Younger who had been a hermit now for years. He said that off and on he called on Linda Herron who had been hiding out from the law on the other side of the mountain. She shot her preacher at a most unfortunate outburst at her wedding.

Unfortunately as we descended from the mountain an avalanche hit us, the next thing we knew we were in a hospital, we recognized the doctor as being Larry Percifield, a nervous wreck, as he had been putting in a lot of overtime lately. His head nurse was Fayanne Hill, who was studying nights to be a veterinarian.

Luckily, we only had a few scratches and were on our way within a few days.

As we were cruising along in our space car we noticed a drive-in restaurant we stopped for a snack. A car hop shimmied over to our car, we realized that we had seen that shimmy somewhere before. It was Mary Cox. She said the owner of the restaurant was Edward Johnson who is now a millionaire. He made most of his money cheating car hops out of tips.

Class Prophecy

The next day being Sunday, we went to church, the speaker for the morning was Stanley Wallace. The organist was Liz Stafford who was married to Dale Moore the bell ringer of the church.

That night we visited the local bar. We shouted our order to the bartender who relayed the message to a dancing bear who tippi-toed over with our orders. As we looked at the bear, we realized under all that hair it was Rebecca McClintic who hadn't cut her hair since she left school. As we attempted to stagger out of the bar we found the doord lady was Martha McIntyre, who was trying to make a living for her family.

So now as we are on our way home with our hearts filled with fond memories of our happy reunions, we had vowed to return again soon.

The names of the authors of this composition are being with-held because our life insurance is not paid up.

PROGRESS!

The neat and compact but sturdy powerful portable transistor Arvin radios shown in this picture are a lot different from the bulky wooden cabinet radios that Arvin began making nearly 25 years ago. Similar improvements have been made in all Arvin products.

The schools and students have changed during that time, too. The facilities, the curricula, and the faculties have been improved. The students, of course, have an opportunity to benefit from this progress and improvement in the schools.

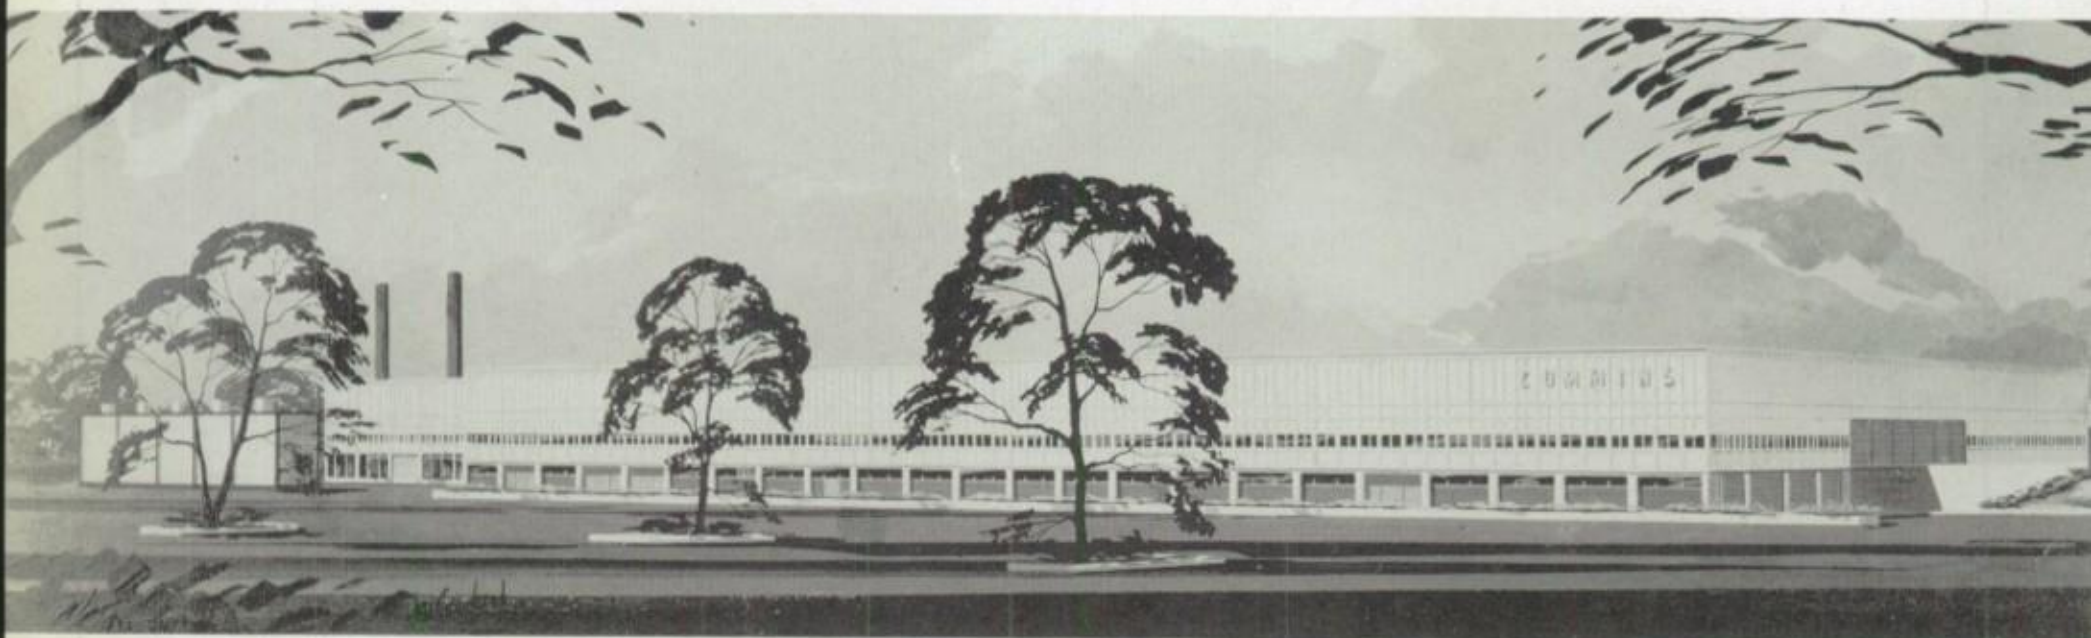

But during all these years one thing has not changed--the pleasant relationship Arvin always has enjoyed with the schools, the churches, and the people in and near Arvin communities.

To all its employees, friends, and neighbors in or near Hope Arvin extends its greetings. Best of luck to all Hauser High School seniors.
